

speaker solutions

Speakers are one of the most critical elements of any good music system and can make the difference between a very good sound and a very average one. We take time to establish each individual customers exact requirements and then source the most suitable products. ISEC Solutions have access to speakers from the most

respected brands in the industry including Linn, KEF, Mission, Sunfire and Sonance, ensuring that we only offer the very best products available.

traditional speakers

We offer a broad range of traditional speakers such as wall mount speakers and flooring standing speakers. Sizes and finishes can be matched to compliment your decor and application. Whether it be for a music system or a home cinema installation we are able to source speakers to suit your exact requirements and budget.

in-wall and ceiling speakers

Imagine being surrounded by music in your home from speakers so discreet, it would be difficult to identify them. The latest in wall speakers and ceiling speakers have been designed with aesthetics in mind but without compromising sound quality. Speakers can be over painted to match your decor or disguised as light fittings to architecturally match with existing down lighting.

concealed speakers

For clients looking for even more discreet solutions we are able to offer a range of innovative products. These include speakers disguised as picture frames or even speakers cleverly disguised as rocks which are perfect for outdoor environments such as the garden or patio.

helping build homes of the future
